Dome Top Square Post Profile

Dome Top Post Turned Round

Marine Bollard Profile (Includes rebate groove collar)

Square profile bollards are supplied rough sawn unless otherwise noted.

It is recommended where possible to have bollards machine dressed (DAR) to ensure consistency with any routing or profiled top as rough sawn posts may vary in width on each particular side. Posts sizes/lengths to be advised by customer.

Standard Bollard Specifications/Options:

- Pyramid Top - 30° Angle unless otherwise noted by customer (Other angles available upon request)
- Routed Collar (Optional) - 8mm Depth x 16mm Width (Nominal) unless otherwise noted by customer (Other sizes available upon request)
- Impact Protection hole (Optional) - Height/Hole diameter to be advised by customer
- Chain/Rope hole (Optional) - Height/Hole diameter to be advised by customer
- Reflector (Optional) - Height to be advised by customer
- Pencil Round/Bevelled Edge lengthways (Optional) - Size determined by outlast Timber unless otherwise noted
- Marine Bollard - Supplied with grooved rebate (Recommended for customer to paint groove rebate black for visual effect) Standard marine bollard diameter is 200mm round (Nominal)

Note: Outlast Timber will determine height, locations, hole sizes and angles if not advised by customer.

All sizes are nominal and may vary.
